

Thinking about Grad School?

The Department of Chemistry & Biochemistry invites you to attend a graduate school information session presented by Professor Hershey Suryn and Professor Dieter of the Department of Chemistry & Biochemistry.

They will provide information about their graduate school experiences and advice on preparing your application, including tips for writing your personal statement. The target audience is seniors majoring in the sciences who plan to apply to graduate school this year, but sophomores and juniors will also benefit by learning more about graduate programs and how you can bolster your resume.

Event: Grad School Information Session

When: Friday, October 2, 4:00 p.m.

Where: Science Center Room 348

Flashback Photos:
